

Position **TOPS Quantitative Researcher**
Location **London**

The Role

We are looking for Quantitative Researchers to join our team in London. You are likely to have a research scientist mind-set and be among the top 5% of students at your university. You will become one of the TOPS team from day 1 and work in a research position designed for high calibre, highly numerate individuals who are able to contribute to the development of our quantitative strategies.

Over time you will become involved in creating and optimising systematic trading models. You will also be tasked with delivering on the research agenda and back testing / researching forecasts of asset returns on horizons of hours to years.

What are we looking for?

We welcome applications from PhD students in a highly quantitative discipline. You are also likely to be someone with a demonstrable interest in investing that is looking for an opportunity that is a little different and in turn you are likely to be inventive, driven and excited about your next big challenge.

As one of Europe's foremost Hedge Fund Managers, it follows that we hire people with potential and a passion for what they do. We want: self-starters; lateral thinkers; independent minds; challengers of the status-quo; and above all outstanding researchers.

Why join our business?

As a dynamic, fast paced and entrepreneurial firm, we think there are three main reasons you would want to join us:

- We actively encourage your ideas. Our firm is built on innovation and so we won't stifle yours.
- You are valued. This means we give you real business critical projects and problems to solve. It also means you will be given responsibility from the start.
- We treat you like an individual - so your training programme is tailored around your own development needs and career path.

How to apply

Applications should be sent to mwam@cornellpartnership.com containing a covering letter of motivation to join and CV. Applications will be received until 1 March 2017.
