MARSHALL WACE

| Position | **2017 Technology Summer Intern Programme** |
| Location | **London** |

We are seeking people at the start of their careers who have a _passion_ for technology.

Based within our development teams, you will hone your software and programming skills whilst getting an understanding our business and financial markets.

You will have the opportunity to work with the latest technologies and learn from some of the best technicians in our sector, allowing you to become an outstanding IT professional.

The MW Technology Intern Programme

Marshall Wace offers an 8-10 week summer intern program in London. The goal of the program is to provide its participants with the breadth, variety and the support that will enable them to build a strong technical platform from which to launch their career.

So, what are we looking for?

To join us for the summer in Technology ideally you will be studying a technology or engineering related subject, in your second or penultimate year. In addition we look for:

- Evidence of how you have used technology, not only in academia, but in all walks of life
- Experience of coding in a software such as C#, C++, JavaScript, SQL, Python …
- Strong written and verbal communication skills
- Hunger to join a fast-paced, entrepreneurial environment that encourages intellectual curiosity and problem-solving
- Collaborative, team-oriented personality

How to apply

Applications will be accepted until 27 January 2017 and should be sent to mwam@cornellpartnership.com, and must contain a detailed covering letter of motivation to join us and CV. Please indicate in the subject line of your application that you are applying for an internship.

Do not wait for the deadline to apply; screening will start in advance so submit your details early.

If your application is shortlisted you will be invited to participate in a telephone interview before further steps of the process, which will include an assessment centre.

Applicants must be able to start during summer 2017.
